Grounding of "Ever Given" in Suez Canal Post Event Update 3:

Location: Suez Canal, Egypt

Impact: marine hull exposure

Issued by Skytek: 09:00 GMT on 03/26/2021

Summary: Following the grounding of the "Ever Given" 03/23/2021 at km 151 of the Suez Canal, the re-floating efforts of several pull-pushing tugs have not been successful.

Skytek continues to analyse the grounding site. The latest satellite Earth Observation (EO) imagery of the "Ever Given" captured 03/26/2021 ([by Planet](#)) reveals a dredger engaged at the fore part of the ship, along with two tugs currently on the side.

Ship's Owners, Shoeni Kisen Kk have appointed Smit Salvage, from the Netherlands, and Nippon Salvage from Japan in charge with the refloating operation, however fears that the canal will stay closed longer makes operators take the route around Africa, instead of transiting Suez Canal, 03/26/2021.
