

Marine Casualty Advisory

06 Apr 2021

Loss of propulsion "EEMSLIFT HENDRIKA" in North Sea

Location: Norwegian Sea

Impact: marine hull exposure

Issued by Skytek: at 22:00 GMT on 06 Apr 2021

Summary: The 2015-built, Netherlands-flagged, 5460 gt "Eemslift Hendrika" is owned by " Eemslift Hendrika Bv" and managed by "Amasus Shipping Bv". The ship's ISM manager is " Amasus Support Bv", and it is entered with British Marine Club on behalf of "Eemslift Hendrika Bv".

While sailing from Bremerhaven to Kolvereid with an ETA of 04th Apr PM weather deteriorated on the 04th Apr with head winds of up to 45 knots and high waves of up to 10m in height, which caused the ship to lose propulsion. React tracks the ship drifting towards Norway coasts.

The ship was abandoned, but crew rescued by the Norwegian Coast Guard, and it is reported that Smit Salvage has been hired to salvage the ship from grounding. React tracks the ocean going tug "NORMAND DROTT", coastguard boat "KV Sortland", and tug "BB OCEAN" in vicinity of the drifting ship, for the salvage operation.
